Early Voting Pollwatcher Credential

Type of pollwatcher (check one): 
- Party Pollwatcher
- Proponent/Opponent Referendum
- Independent organization (community/civic groups)

The person named below has been appointed as pollwatcher during the casting of ballots in this polling place. The signer of this certificate shall be the sponsor of the pollwatcher. The pollwatcher is authorized and empowered to perform the duties of a pollwatcher as defined by law.

Name of pollwatcher: ____________________________
Address: ______________________________________
Signature of pollwatcher: ________________________
Residence address: ______________________________
City/village: _________________________________

Attention Election Judges:
- Accept this credential only if it is completed and signed.
- Place this credential in Envelope 604.

Karen A. Yarbrough, Cook County Clerk

Pollwatchers MUST have and surrender their Early Voting Pollwatcher Credential.

- Pollwatchers cannot be in the Polling Place without surrendering a credential.
- There are 2 types of Pollwatcher Credentials.
  1. Party (Democrat, Republican, Green, etc)
  2. Universal (for any party)
- Any Credentials surrendered must be completely filled out and signed by both...
  - The Pollwatcher
  - The sponsoring party, organization or candidate.
Early Voting

Early Voting is by law a convenience that allows voters to cast their ballots prior to Election Day. Voters do not need a reason to vote early.

A suburban Cook County registered voter can vote early at any of the suburban Cook County Early Voting sites or register and vote the same day.

Important Dates

- Primary Grace Period: February 21 - March 18, 2024
- Primary Early Voting: March 4 - March 18, 2024
- Primary Election Day: March 19, 2024
- General Election Day: November 5, 2024

Voting Equipment and Setup Day

Each ePollbook, Touchscreen, Ballot Printer, Scanner and the EV-VSC will have a label identifying the Early Voting site.

Set up all equipment on...
→ March 1st, 2024 (February 20th at one courthouse and the Clerk’s main office in downtown Chicago).

No Empty Touchscreens!!!

- Check voters in upon their arrival.
  * **DO NOT** wait until you have an empty Touchscreen.
- If you have many voters, create a line of voters waiting to use the Touchscreen. Your site may have 2 lines - a check-in line and a Touchscreen line.
  → This procedure shortens the wait time for voters.
- The only time a Touchscreen will not have a voter is when the Ballot Printer is out of paper.
  → In that case, filling the paper tray is a priority if voters are waiting.

Judges who do not follow the No Empty Touchscreen procedures are subject to immediate termination!
Judges in the Polling Place

Long Lines - Division of Labor

► Judges monitoring the Check-in line:
   1. Direct voters to a check-in station as soon as one is available.
   2. Ask voters to have their Driver’s License or State ID out if they want to use it to check in faster.
   3. Ask new or “change of address” voters to have their 2 pieces of ID out.
      → Explain that one should be their Driver’s License or State ID if they have one.

► Judges checking in voters:
   1. DO NOT talk to voters about how to vote on the Touchscreen.
   2. Hand voters a number so that you can call the next voter when a Touchscreen becomes available.
   3. Hand voters a privacy shield along with their Voter Card.

► Judges monitoring the Touchscreens:
   1. Send voters to a Touchscreen as soon as it becomes available.
   2. Retrieve the number given to the voter.
   3. Remind voters to print their ballot before removing their Voter Card from the Touchscreen and go to the Scanner to cast their ballot.

► Judges monitoring the Scanner(s):
   1. Make Sure to initial every ballot before it is cast in the Scanner.
   2. Make sure voters with Privacy Shields cast their ballot in the Scanner.
      → Regular, Other Affidavit or Grace Period voters.
   3. Make sure voters with Provisional Ballot Envelopes place their marked ballots inside the envelope and seal it.
      → Collect and place their ballots in Provisional Envelope 606.

4. Assist voters if necessary.
5. Hand voters an “I Voted” sticker as they return their Voter Card and Privacy Shield.
6. Closely monitor all printers for paper.
   → Filling the Printer with paper is a priority if voters are waiting to vote.
7. Count the number of voters waiting to vote on the Touchscreens when asked.

Poll Worker Cards & Keys

► All items are to be shared.
► DO NOT write anything on the Poll Worker Cards.
► The Point Person is responsible for the lanyard and the additional Poll Worker Cards.

Conduct

► Conduct yourself in a professional manner at all times.
► Do not make any off-the-cuff comments.
   → Do not joke or make light-handed comments about the Election, a candidate, a contest or about voting.
   » Voters take voting very seriously and ALL Judges should do the same.
► No profanity or foul language.
► No loud music.
► **NO PERSONAL USE** of cell phones, beepers or pagers during working hours in the voting room.
► **NO USE** of personal laptops, tablets, iPods, DVD players or headphones during working hours.
   → No watching movies or TV on your laptop while at your workstation, during Early Voting hours.
► Do not conduct personal business while working as a Judge.
   → If conducting personal business on your break, do it away from your work station.
Judges in the Polling Place (continued)

- **Food or drink is not permitted at your work stations at any time.**
  Eat away from the equipment and work materials.

- **NO DRUG USE**, influence or intoxication while serving as an Early Voting Election Judge.

**Dress code**
- Business casual dress Monday - Thursday.
- Dress neat and not sloppy, as you are representing the Cook County Clerk’s Office.
- Casual dress Friday - Sunday.
- No political items may be worn including buttons, t-shirts, hats, etc.
- Hats may not be worn in the voting room.
- If you violate the rules and procedures, you may be subject to termination.

**ePollbook Use**
- If there is a problem with an ePollbook, call the Early Voting Call Center.
  → 312-603-1178
  → **DO NOT** take matters into your own hands.
- The ePollbooks are only for use as ePollbooks during Early Voting.
- **NEVER** insert any unauthorized devices into any of the USB ports on the ePollbook.
- **NEVER** log on to the internet for any reason, outside of our instruction.
- Violation of ePollbook usage rules will result in immediate termination.

**Availability**
- Cell Phone:
  → Your cell phone must be on during Early Voting. Make sure to answer our calls. We must be able to contact you at all times.

- **eHelp**
  → Read and answer all eHelp messages as directed.

**Work Hours**
- Early Voting work hours are 8:00 am until all daily closing procedures are completed after the polls close.
- Arrive at your Early Voting site...
  → Mondays - Saturdays by 8:00 a.m.
    » Must be open and ready for the 1st voter at 9:00 a.m.
  → Sundays by 9:00 a.m.
    » Must be open and ready for the 1st voter at 10:00 a.m.
- There are no exceptions to these hours unless approved before hand by the Cook County EV staff.
- You may not leave early due to not taking your lunch hour or breaks.
- Violation of this rule may result in immediate termination and you will be removed from the Early Voting program in the future.
- **Attendance:**
  → Call the EV Call Center and your fellow Judges if you are sick and unable to work or running late.
    » If you are late a second time, we will strongly consider replacing you.
- **Breaks** (be considerate of your fellow Judges):
  → Lunch - 1 hour
  → 2 Breaks - 15 minutes each (A.M. and P.M.)
  → Smokers may not take additional smoke breaks.

Campaign Material

Voters can bring in material handed out by people passing it out in front of the Early Voting Site, lists or mail they received from candidates. They cannot use the material in the polling place for discussion purposes, but they can carry it in and use it while voting.

Campaign Free Zone - Electioneering

The Campaign-Free Zone provides an intimidation-free election environment for voters approaching and in the Early Voting site.

- Electioneering is strictly prohibited within 100 feet from the door to the room in which Early Voting is conducted. Electioneering includes wearing campaign buttons, badges, tee shirts, sweatshirts, caps, or any type of clothing in specific colors or with slogans, pictures, etc.; asking voters to vote a particular way; or leafleting.

- Intimidation is a felony under Illinois law.

Measure 100 feet for the campaign-free zone. Mark off 100 feet from the entrance to the room where voting occurs, using the 100’ string and the piece of blue chalk in the plastic supply bag.

Determine which of the following scenarios best describes your EV site.

This will determine where to place the chalk mark.

- In a one-story building or ground floor of multi-story building:

  If the Early Voting polling place room is in a one-story building or on the ground floor of a public or private building with two or more floors, measure 100 feet from the entrance to the polling room. Place the chalk mark on the ground, even if it is still inside the building. Be sure to mark all entrances that voters can use to get to the polling room.

- On a floor other than the ground floor of multi-story building:

  If the polling place room is on a floor above or below the ground floor in a public or private building with two or more floors, measure 100 feet from the nearest elevator and/or staircase used by voters on the ground floor and place the chalk mark on the ground.
People in the Polling Place

Pollwatchers
Pollwatchers must present an Early Voting credential to you upon entering the Early Voting site. They will need one for each day they want to enter the Early Voting site.

- A credential is issued by the State Board of Elections or the Clerk’s office and must include a signature or stamp of an official of the State Board of Elections or the Cook County Clerk.
- It must also include a signature or stamp of the state or local party chairman, a candidate whose name appears on the ballot, the presiding officer or chairman of an organization, or the proponent or opponent of a referendum on the ballot.
- Credentials must include the Early Voting site as well as the name and address of the pollwatcher.
- Upon entering the Early Voting site, a pollwatcher must present and sign his or her credential and surrender it to a Judge who places it in Early Voting Credentials Envelope 604. Any pollwatcher who doesn’t present a credential must leave the Early Voting site.

You, as Judges, and Cook County Clerk’s staff or authorized Rovers from the Cook County Clerk’s office are the sole authority in the Early Voting site. You may expel observers who violate these rules.

Media and Exit Pollsters
Members of the media and exit pollsters are allowed to enter and observe Polling Places (Early Voting locations). Judges should ask to see identification from members of the media, such as an ID badge or a business card, but they do not need to surrender a credential. Clerk’s Office photographers/videographers need only show their Cook County ID.

Guidelines for Media and Exit Pollsters:

- Media/Reporters/News Crews have the right to photograph and film inside the polling place.
- Individual Voters/Judges can request to be excluded if they do not want to be photographed or filmed – but this does not prevent the media from accessing the polling place and only applies to the excluded individuals.
- Interviews should be conducted at a distance of 100 feet from the entrance, so as to not disturb voting.
- If a problem arises, contact the Clerk’s Communications Department at 312-603-0991 or 312-835-0817.

Media and Exit Pollsters may not:

- Photograph or record voter ballot selections or markings.
- Handle voting equipment or materials.
- Interfere with voter or polling place access.
- Discuss politics or candidates with voters or Judges.
- Conduct interviews inside the Polling Place or within 100 feet of the entrance to the room where voting is taking place.
Dealing with Voter Challenges

Someone challenges a voter

**What do you do?**

Challenges usually come from a pollwatcher, but can also come from an election judge or voter. Challenges must be directed to the Judges and not to the voter.

- Judges must hear all proper challenges and issue rulings. However, voters may not be harassed or challenged without adequate cause.
- Repeated behavior by pollwatchers or Judges can lead to expulsion from the polling place. If you believe harassing behavior is occurring, call the EV Call Center immediately at (312) 603-1178. The Clerk’s office has the right to dismiss anonymous complaints.

**Challenges Based On Identity or Residence**

Identity (that’s not really the voter); or Residence (the voter does not actually live at the address given):

*A challenger must provide Judges with a reasonable fact to support the challenge.*

- Unacceptable Challenges:
  - “I don’t think he is John Smith”
  - “I don’t think she really lives at 123 Main Street”

*These types of challenges should be rejected because they are not specific. Voters must be allowed to vote a regular ballot if there is no Provisional Special Circumstance.*

- Acceptable Challenges:
  - “John Smith is my neighbor and that is not John Smith”
  - “She can’t possibly live at 123 Main Street because I live there.”

**Acceptable challenges must be voted on**

- If the majority of Judges believe that the challenger has a reasonable challenge, then ask the voter to show some proof of identity or residence, as the case may be. A driver’s license or state ID is always good proof, but so are many other forms of ID and/or documentation. Proof of identity is not limited to the Acceptable Forms of ID listed on page 104.
- If the majority of Judges decide that the challenge has no merit, allow the voter to vote as usual. If you uphold the challenge (agree with the challenger), issue the voter a provisional ballot. See page 93 for instructions on how to properly challenge a voter and issue a provisional ballot.

**Challenges Based On Previous Vote**

Already voted (either by mail, early or grace period):

- Judges should follow the prompts in the ePollbook to issue the voter the proper ballot.

**Challenges Based On Registration**

Every voter who is listed in the ePollbook is properly registered and challenges to the voter’s registration must be rejected.

Signature Verification Considerations

When evaluating a signature, remember that no one always makes a signature the same way (signatures change over time). Signatures are an individual expression of an individual’s name; they are not transcriptions of the name and there is no absolute formula for evaluating a signature, but the following considerations are important.

**Step 1**

**BROAD, INITIAL CONSIDERATIONS**

1. The visual impression that a signature makes is a good starting point, but not final
   - Franklin D. Roosevelt vs. Franklin D. Roosevelt

2. Consistency, not identity, is what matters; the overall form of the letters should be consistent
   - Mildred Fillmore vs. Mildred Fillmore

3. Proportion, not size, matters: RELATIVE height and length are what matters
   - Mildred Fillmore vs. Mildred Fillmore

4. Signatures tend not to be complete – middle initials; combined letters; drift-off at end, but the “shape” of the incomplete part should be consistent with the rest of the signature
   - James A. Garfield vs. James A. Garfield

5. “Ideographic” signatures are OK, if they match
   - Abraham Lincoln vs. Abraham Lincoln

**Step 2**

**PARTICULAR, CLOSE CONSIDERATIONS**

1. First letters tend to be the most consistent
   - Fu vs. Fu

2. How letters are connected – or not – matters
   - Mian Bure vs. Mian Bure

3. Slant matters, especially left slant, which is uncommon
   - Abraham Lincoln vs. Abraham Lincoln

4. Similar flourishes are indicative of the same hand
   - James A. Garfield vs. James A. Garfield

5. Crossing “T” and dotting “I” is a common characteristic of consistency
   - Harold Washington vs. Harold Washington

</table>

The Regular Voter

1. Give the voter the option to use their Driver's License or State ID to speed up the check-in process.
   → If the voter chooses to use their ID,
     A. Tap the black “Scan Barcode” button on the bottom left of the screen.
     » The ID Reader will activate.
     B. Have the voter place their Driver’s License or State ID on the ID Reader stand, with the ID facing them.
     » This will automatically search for the voter
     C. Move to step 3 when the address verification screen with the voter’s information appears.
   → If the voter DOES NOT choose to use their ID,
     A. Tap the black “Manual Entry” button on the bottom right of the screen.
     » Last and First name boxes will appear.
     B. Type in at least the first 2 - 3 letters of the voter’s last name and of their first name.

   Hint: If you have trouble finding a voter whose name has an apostrophe, substitute a space instead. Also, don’t add a space in names like DeMille, LaBrose and McCormack or remove the space if you have entered the name with one and don’t find the voter. Don’t give up. For Advanced Search options, see page 72.

2. A. Tap the black “Search” button at the top right.
   → The voter’s name and address will appear on screen.
   → If there are other names that fit the search, a list of voter names will appear on screen.
   B. Ask for additional information to find the voter if there are other voters with the same name.
      → Date of birth, address, etc.
   C. Tap on the voter’s name.
### Processing Regular Voters (continued)

| 3 | A screen with the message “Please verify the voter’s name and address is correct” will appear, with the voter’s date of birth, name and address.  
A. Flip the screen toward the voter.  
B. Ask them to verify their name and address.  
C. Flip the screen back toward you.  
D. Tap the “Name & Address is Correct” button on the right if the voter’s information is correct.  

---  

| 4 | The “Ballot Language” screen will appear.  
A. Flip the screen toward the voter.  
B. Ask the voter to tap the button for their preferred language.  
   → Touchscreens will have all 12 languages offered by the Cook County Clerk’s Office.  
C. Instruct the voter to tap the blue “Accept” button on the top right after they make their selection.  

---  

| 5 | Skip this step in a General Election.  
The “Party Selection” screen will appear in a Primary, but not in a General Election.  
A. Ask the voter to select their party.  
B. Instruct the voter to tap the blue “Accept” button on the top right when they have completed their selection.  
   → The “Voter Certification” screen will appear.  

---
A. Instruct the voter to sign the screen after reading the voter certification language.

→ Tell the voter to tap the black “Listen to Oath” button, if they want the ePollbook to read the certification aloud.

B. Flip the screen toward you after they sign.

C. Tap the blue “Done Signing” button.

The “Poll Worker Confirmation” screen will appear, with the voter’s signature in the “Signature on File” box and today’s signature in the “Signature on Election Day” box.

A. Compare the signatures

→ If they match, write your initials in the “Initial” box at the bottom right.

B. Tap the blue “Submit” button at the top right.

For issues with the voter’s signature, see pages 97-101.

A screen with the message “Choose the type of ballot you are providing the voter” will appear.

→ Tap on the “Touchscreen” button.

**DO NOT** select “Paper!”

→ Voters can only mark their ballots on the Touchscreen during Early Voting.
Activating a Voter Card for the Touchscreen

A. Insert the Voter Card into the Card Activator.
   → With the chip facing you and the arrow facing the voter.
   → A blue light will appear on the Card Activator.

B. Tap the “Touchscreen” button.

The instruction “Tap the Activate Card button” will appear.
A. Tap the “Activate Card” button.
   → The card will activate.
   → A Check-in Receipt and Ballot Style Receipt will print.
      » 2 receipts will print.
         › 1st, a Ballot Style Receipt
            • Shorter receipt with the Ballot style listed
         › 2nd, a Check-in Receipt
            • Longer receipt with Ballot Style and Voter information

B. Place the Check-in receipt inside the Voter Check-in Receipt Envelope.

C. Give the voter the Ballot Style Receipt.

A. Remove the card from the Card Activator.
B. Hand the activated card and a Voter Privacy Shield to the voter.
C. Explain to insert the activated card into the yellow slot on the Touchscreen, with the arrow facing up, as illustrated on the Touchscreen.
D. Direct the voter to a Touchscreen after explaining the ballot casting instructions.
Touchscreen Ballot Casting Instructions for the Voter

⇒ The Touchscreen is only a ballot marking device, and does not cast ballots.
⇒ All ballots that are not Provisional must be cast using the Scanner.
  » Refer to the “Special Circumstance Chart” on page 76 for reasons for a Provisional ballot.

A. Tell the voter that the Touchscreen has printed their ballot when the “Thank you for voting...” screen to the left appears.
   → Their ballot hasn’t been cast yet.

B. Tell the voter to follow these steps to cast their ballot:
   1. Remove their Voter Card from the slot.
   2. Find their ballot on the Ballot Printer.
   3. Remove their ballot from the Ballot Printer.
   4. Take the following to the Scanner:
      → Their ballot
      → The Activation Card
      → The Voter Privacy Shield
   5. Keep the votes on their ballot covered by the Voter Privacy Shield. The judge at the Scanner will initial it.
      → The Scanner will not accept ballots without judge initials.
   6. Insert their printed ballot into the Scanner.
      → Still covered by the Voter Privacy Shield.

The Judge at the Scanner will collect the Voter Privacy Shield and Voter Card and give the voter an “I Voted” sticker after they cast their ballot.
**Advanced Search Options**

If you cannot find the voter using their last and first name, don’t give up! There are other options.

- First, verify with the voter that you’ve spelled their name correctly.
- Try names like Mc Donald, De la cruz, and Van de Kamp and O Connor, with and without the spaces. **Try** an Advanced Search to find the voter.

### 1. Tap the “Advanced Search” button, to the right of the black “Search” button

The “Advanced Search” button will turn black and a list of selections will appear beneath the “Last Name” and “First Name” boxes.

- **DOB (Date of Birth)**
  - Works well if there are several name matches.
- **Address**
  - Works best if the last and first names alone aren’t working.
- **License No.**
  - Used if the Driver’s License or State ID didn’t scan.
- **Voter ID**
  - Located on the voter’s Voter ID card.
- **Scan Barcode**
  - Use this option if the voter decides to use their Driver’s License or State ID.

### 2. Tap on the search option you want to try.

- **DOB (Date of Birth)**
- **Address**
- **License No.**
- **Voter ID**
- **Scan Barcode**

### 3. A. Enter the information for the search option you select.
- The searches will be added to the “Last Name” and “First Name” searches.

### 3. B. Tap the black “Search” button after each entry.
- The options will turn orange as you try them.
Voter Required to show ID

**ID Required**

In some cases, when a voter registers online or through the mail and still needs to show ID, the message “ID Required” will appear to the right of the voter’s information during a manual search and across the top of the first screen when a voter scans their ID to check in.

Follow the steps below if the message “ID Required” appears when checking a voter in.

|       | 1      | If there is an “ID Required” message in red on the screen, ask the voter for ID. → Acceptable forms of ID include:  
 » Photo ID  
 » Utility Bill  
 » Bank Statement  
 » Government Check  
 » Paycheck  
 » Other Government Document |
|       | 2      | In the “ID Type & ID Number” box...  
A. Enter the Type of ID the voter is using.  
B. Add a forward slash.  
C. Enter the number from the ID. |
|       | 3      | Tap the “Has ID” after the voter hands you the ID. → The message “Please verify the voter’s name and address is correct” will appear. |
|       | 4      | The Check-in becomes a “Regular Voter” Check-in when “Has ID” is selected. → Go to step 3 on page 68 in Processing Regular Voters and complete the Check-in. |

If the voter does not have ID, follow the steps in “Inactive Voter” with ONLY 1 or NO ID on page 87.

See the Acceptable ID list on page 108 for what to enter in the “ID Type & Number” box for the IDs listed in step 1.
Special Circumstance Voters
Three Types of Voters

Three Types of Special Circumstance Voters

1. Provisional
2. Grace Period
3. Other Affidavit

The type of Special Circumstance determines how to check a voter in.

Provisional Voters

Provisional Voters have registration issues that can’t be resolved by Election Judges during Early Voting.

→ Judges MUST activate a Provisional Voter card on the ePollbook.
→ They must sign a Provisional Voter Affidavit.
→ They must be given a Provisional Voter Receipt that gives instructions on what they should do next.

→ Provisional ballots DO NOT get cast in the Scanner.

» Instead, they are sealed by the voter in a Provisional Ballot Envelope, with the Ballot Style Receipt from the check-in attached and the Voter’s name written.

Provisional Votes After Election Day

→ Provisional Ballots are processed and counted if the voter’s circumstance is resolved.
→ The Cook County Clerk’s Office will identify the ballots using the Provisional ID number.
→ The Provisional ballots will then be accepted or rejected.

Grace Period Registration Voters

There are Two types of Grace Period Registration Voters.

1. New Voters who are registering for the first time.
2. Voters who moved but did not re-register with their new address.

→ Grace Period voters MUST show two pieces of ID to fully register and vote.

If a GRACE PERIOD REGISTRATION VOTER DOES NOT HAVE SUFFICIENT ID,
→ They CANNOT vote during Early Voting.
→ They can vote Provisionally at their precinct on Election Day.

→ They must sign a Grace Period Voter Affidavit.
→ After completing the registration process and checking in, they will be given a Voter Registration Receipt as proof of their registration.
→ They are allowed to vote a regular ballot on the Touchscreen.

Other Affidavit Voters

Other Affidavit Voters have issues that Election Judges can resolve during Early Voting.

→ They must sign an Other Affidavit Voter Affidavit for their specific Special Circumstance.
→ They are allowed to vote a regular ballot on the Touchscreen.
Below, is a list of Special Circumstances, the issues that cause them, and the pages in this manual that give instruction on how to handle them.

Who May Register to Vote

To register to vote, a person must:

▶ Be a U.S. citizen.
▶ Be at least 18 years old.
  → 17 year old citizens who turn 18 on or before the General Election can register and vote.
▶ Reside in Suburban Cook County.
▶ Display two pieces of identification.
  → Neither needs to be a photo ID but one must include their current address.

Important Information

⚠️ A Grace Period voter must vote at the same time that they register.

⚠️ If the voter has insufficient ID, they can vote Provisionally on Election Day.
  ➤ They CANNOT vote during Early Voting.
  ➤ DO NOT process voters Provisionally for Grace Period voting during Early Voting

⚠️ Persons convicted of crimes and currently serving their sentences in a penal institution cannot vote. People awaiting trial in a penal institution or persons on parole or probation are eligible to vote.

⚠️ If a person tells you that their gender is different from the one on their ID, enter their gender as specified by the voter on the Grace Period Registration form in the ePollbook.

⚠️ Electronic retrieval of bills or other documents are acceptable as long as they contain the information needed to complete the ID box.

⚠️ Voters may not use the same type of item from both lists.
  ➤ For example you may not accept 2 pieces of mail.

Assisting Voters Who Need Assistance

► Be alert to the needs of voters with disabilities.
► Be considerate of the extra time it might take for the elderly or a person with a disability to complete the voting process.
► Provide unhurried attention to a person who has difficulty speaking.
► Speak directly to the person who has a disability rather than to a companion who may be along.
► Speak calmly, clearly and directly to a person who is deaf or hard of hearing.
► Do not shout or speak in a person’s ear.
► Rephrase rather than repeat what you’ve said, or write a note, if the person doesn’t understand you.
► Before providing assistance to a person in a wheelchair, ask if you may do so and how you should proceed.
► Greet a person who is blind or visually impaired by letting the person know who and where you are. Describe what you are doing. Let the voter know when you need them to do something. If necessary, offer your arm. Don’t take the voter’s arm without their consent.
► Be sure you recognize that physical disabilities are not cognitive or intellectual impairments.
**ATI Handset**

### Audio Voting

The Touchscreen is equipped with an Audio Ballot, a headset and an ATI (*Audio Tactile Interface*) handset to allow voters who are blind or visually impaired, have limited manual dexterity, or have limited reading skills to hear the ballot and make their selections through the Touchscreen’s AVS (*Accessible Voting Session*).

### ATI Handset Control Buttons

- **SELECT Button**
  The red X Select button allows the voter to make selections and cast the ballot after voting is complete.

- **LEFT & Right Arrow Buttons**
  The yellow Left and Right Arrow buttons allow the voter to navigate backward and forward through contests on the ballot.

- **UP & Down Arrow Buttons**
  The blue Up and Down Arrow buttons enable the voter to navigate through contests on the ballot and the candidate's names in a particular contest.

- **RATE Buttons**
  The orange round buttons on the top right side of the keypad control the speed of the narrator’s voice. The right button increases the speed. The left button decreases speed.

- **VOLUME Buttons**
  The two white square buttons on the top left side of the keypad control the volume. The right button increases volume. The left button decreases volume.

- **HELP Button**
  The long green rectangular button provides guidance and assistance to the voter. The voter can press the Help Button at any time during voting.
**Accessible Voting Sessions (AVS)**

**Activating an AVS**

Follow the steps on this checklist to activate an AVS and use the ATI Handset.

Ballot Navigation, Using the ATI Handset

During Accessible Voting, the ballot is marked by the voter, using their selected device.

- Instruction on how to use their selected device is given through the headphones.
- A voter can navigate through the ballot contests and choices
- The voter can select the language, text size, audio volume, tempo and screen colors.

The ballot is presented to the voter in the following order during Accessible Voting.

Next Contests

After hearing/selecting all available choices in a contest, the voter can navigate to the next contest using the navigation buttons and choose to select the next contest.

→ The voter will repeat the procedure to vote for each available contest.
Ballot Review

1. When the last contest is reached, after selecting all the available choices, the voter is moved to the "Ballot review" screen.
   → The Ballot Review Screen can be navigated to at any time by:
     » Using the navigation button on the bottom of the screen (Audio Visual Voting).
     » Navigating through screen action buttons as instructed by the voice instructions for the selected Accessible Voting device.

2. On the Ballot Review Screen, the voter will:
   → Hear the first summary of their ballot selections.
   → Get instruction on how to hear and review all contests.
   → Learn how to cast their ballot.
      » When the voter reaches the last contest.

Marking the Ballot

1. When the voter makes the selection to print their ballot, the voter will get the 2 options.
   
   A. Accept and print the ballot.
   
   B. Review/make changes to their choices by returning to the Review screen.

2. When the voter chooses to accept and print their ballot, they will get one of the following:
   → The screen will give confirmation and the voter will hear through the headphones that their ballot has been marked.
   → The screen will give a warning or message and the voter will hear through the headphones that something went wrong in marking the ballot.

3. The voter will be instructed to select the “Continue” button.
   → The Accessible Voting session is complete.
   → The “Ready for next Voter” screen will appear on the Touchscreen.

Casting the Ballot

Regular, Other Affidavit & EDR Voters
The voter will be directed or escorted to the Scanner, where they will insert their ballot cards to cast.
→ Make sure their ballot is covered by a Voter Privacy Shield as they insert it into the Scanner.

Provisional Voters
The voter will be instructed to place their ballot in their Provisional Ballot Envelope and directed or escorted the Scanner to hand their ballot to a Judge to be placed in the Provisional Envelope 606.
→ Make sure the Provisional Ballot Envelope contains their ballot cards and is sealed.

Last Voter Rules

Important last voter rules

For Early Voting locations that stay open until 7pm during the second week of Early Voting, instructions on how to handle long standing lines at or near the closing of voting will apply:

→ If long standing lines are still heavy near the close of voting at 7pm, an Early Voting Judge will indicate/mark the cut off placement for voting check-ins at 6:45pm.
  » This is to ensure the ability to close voting as close to 7pm as possible.

→ Any voters that are remaining after the cut off indicator is placed, must return the following day to vote if applicable or vote in precinct if it is the last day of Early Voting.

Please Note:

*If the cut off time has been called and there are only 2 or 3 persons already being checked-in to vote, please use discretion when allowing additional voters to check in as to not extend too far past the 7pm closing time.*
**Alternate Ballot Box**

If the Scanner was out of service during the day and voters put their ballots into the Alternate Ballot Box, you will have to process those ballots at the end of the day only when all voters have left the polling place and the Scanner is back in service.

Follow the steps on this checklist to process ballots from the Alternate Ballot Box during Early Voting. Check the box next to the item as it is completed.

Nightly Totals

Voter Check-in & Provisional Totals

Nightly Totals

ePollbook & Scanner counts are cumulative.

Check-in and Provisional counts on the ePollbook (Summary Report) and the total votes on
the Scanner are cumulative. They will increase daily and their totals will be overall.

Provisional Ballot Envelope counts are daily.

Provisional Ballot Envelope counts are daily and based on the number of envelopes inside
Envelope 606. The Statement of Ballots Audit Log will help to find their overall total.

Voter Check-in Totals (Regular + Provisional)

A. Write the “Check-in” & “Provisional” totals from the
“Summary Report” receipt in the “Regular Check-in”
& “Provisional Check-in” boxes in the “End of Day”
section on the Statement of Ballots Audit log.

B. Write their combined total in the “Check-ins” box in
the “Overall Totals” section.

→ Overall Check-ins = Regular + Provisional.

Provisional Envelope Total

A. Count the Provisional Ballot Envelopes inside
Provisional Envelope 606 and write the total in the
bubble in step 4 on the face of the envelope.

B. Write the total from Envelope 606 in the “Provisional
Ballot Envelopes” boxes in both the “End of Day” and
“Overall Totals” sections on the Statement of Ballots
Audit log.
Total Voters

5

A. Place the Summary Report Receipt inside the Voter Check-in Receipt Envelope.
B. Make sure that the information at the top of the envelope is complete.

There is no need to count the receipts unless Totals Check-in do not match Total Votes.

Overall Provisional Envelope Total

6

A. Add the “End of Day” Provisional Envelope count from step 4 to the “Overall Totals” Provisional Envelope count from the night before.
B. Write the total in the “Overall Totals” box for the night.

Example of a 2nd night of Early Voting, with a 550 total on the Scanner Ballot counter.

Scanner Total

7

A. Record the number from the Scanner Ballot Counter in the “PM Ballot Count” column on the Scanner Audit Log.
B. Initial the line confirming all information on the correct date.

### If Check-ins & Total Voters Do Not Match

Now that you’ve figured out how many voters were checked in, make sure you have the correct number of votes cast (Provisional and Scanner totals).

→ If not, you need to give a very good explanation of why.

→ A Touchscreen voter fled without pressing Print Ballot, and you had to cancel out the ballot.
  » If you know which voter fled, call the Call Center to cancel the voter’s check-in.
  » If you don’t know, use this as your explanation.

→ A voter fled with their ballot, or spoiled their ballot and left without voting.
  » If you know which voter, call the Call Center to cancel the voter’s check-in.
  » If not, use this as your explanation.

→ The Scanner is not working at the end of the night.
  » If there are uncounted paper ballots, type “Uncounted Paper Ballots” in the text box.
  » If all ballots were counted, but you couldn’t retrieve the total because the Scanner was off, call the Early Voting Call Center to report you were unable to retrieve your Total Votes because the Scanner wasn’t working.

→ Other
  » If none of the above apply, enter your explanation.

---

**It is very important that the number of voters matches the number of votes, so don’t just use “Other” as a catch-all. If your totals don’t match, you need to find out why and tell us why.**

| A red light appeared on the top left on the face of the printer. | The printer tape is running low on tape and will need to be changed.  
→ You can continue printing until you start to see a pink streak on the take.  
→ Changing the ePollbook Printer Tape, on page 175. |
| Paper is not advancing from the printer. | 1. Press the paper advance button on the face of the printer.  
→ The tape should advance forward.  
2. Re-seat the paper tape.  
   a. Open the printer door.  
   b. Remove & reinsert the tape.  
   c. Close the door.  
   d. Tap the green printer icon on the upper right of the ePollbook screen.  
   e. Tap the “Print Test Receipt” button.  
   → A “Printer Test” receipt should print out.  
3. Call the Early Voting Call Center if step one doesn’t work. |
| The printer isn’t printing | 1. Check the printer icon at the top right on the ePollbook.  
→ It will more than likely be red with an exclamation point.  
2. Check to see if there are lights on the face of the printer.  
3. Press the power button on the top right corner of the printer.  
4. Check that the 2 sections of the power cord are firmly connected.  
5. Make sure the printer power cord is connected to an outlet.  
6. Call the Early voting Call Center if steps 1-5 do not work. |
# ID Reader & Power Issues

## ID Reader Issues

| The ID Reader is not reading the ID | 1. Make sure the ID Reader stand is connected to the ePollbook stand correctly.  
2. Make sure the ID is placed on the ID Reader stand, with the barcode in clear view of the ID Reader camera.  
3. Adjust the stand or move the ID around in front of the camera on the ePollbook iPad to reduce glare on the ID.  
4. Call the Early Voting Call Center if steps 1 and 3 do not work. |

## Power Issues

| The ePollbook iPad isn't getting power. | 1. Make sure...  
   a. The ePollbook Printer is powered on.  
   b. The greenish-yellow power cord from the ePollbook Printer is securely attached to the Card Activator.  
   c. The connection between the iPad and the Card Activator is secure.  
   d. The silver brace is securely in place, not leaning or loose.  
2. Re-seat the Card Activator and silver brace.  
   a. Unplug the power cord from the Card Activator.  
   b. Unscrew the screw on the silver brace.  
      → Just enough to loosen it. DO NOT completely unscrew it.  
   c. Unplug both the Card Activator and silver brace.  
      → Wait 5 seconds after unplugging.  
   d. Slide them both back in without the power.  
   e. Tighten the screw on the back of the brace.  
   f. Plug the power cord back into the Card Activator.  
   g. Press and hold the power button on the top left corner of the iPad.  
      → A white Apple logo will appear.  
3. Call the Early Voting Call Center if these steps do not work. |

| The ePollbook is completely dead and won't charge | There is no reserve battery power left in the iPad.  
→ It can only be charged with an iPad lightning charger.  
» Call the Early Voting Call Center if no there is no lightning charger in the polling place. |
Card Activator Issues

1. Check the Card Activator icon at the top right on the ePollbook.  
   → It will more than likely be red with an exclamation point.

2. Make sure that the silver brace is far enough into the slot on the right side of the ePollbook, its not leaning or loose and that the screw is tight.

3. Make sure the Activation Card is inserted properly in the Card activator slot.  
   → The face of the side with the Voter Arrow should be facing the voter and the white side should be facing you.

4. Make sure the blue light on the Card Activator comes on when the Activation Card is inserted.

5. Re-seat the Card Activator and silver brace.  
   a. Unplug the power cord from the Card Activator.  
   b. Unscrew the screw on the silver brace.  
      → Just enough to loosen it. DO NOT completely unscrew it.  
   c. Unplug both the Card Activator and silver brace.  
      → Wait 5 seconds after unplugging.  
   d. Slide them both back in without the power.  
   e. Tighten the black screw.  
   f. Plug the power cord back in if the Card Activator icon at the top right turns green again.

6. Reboot the ePollbook if steps 1-5 do not work.

7. Call the Early Voting Call Center if steps 1-6 did not work.
Rebooting the iPad

1. Press and hold the Home and power buttons at the same time.
   a. Keep holding them through the “slide to power off” prompt.
      → DO NOT slide to power off for this step.
   b. Let both buttons go when the screen goes black and you see the Apple logo.
      → The Apple logo will show up a few seconds after the “slide to power off” prompt goes away.
      → The reboot will take a few seconds.
      → The screen will show a colorful background, with the time at the top after the reboot.

3. Press the Home button again.
4. Tap the “P” at the bottom of the screen.
   → The screen will go back to the Get Started Screen.
5. Tap the black “Get Started” button.
   → The “Enter Pollworker Credentials“ screen will appear.
6. Enter the Username and Password.
7. Tap the black “Sign-in” button on the right.
   → The “Check-in Option” screen will appear.
   → The reboot is complete.
Receiving & Sending Messages with eHelp

**eHelp**

eHelp is an ePollbook messaging system that can be used during Early Voting for a variety of needs, such as supply requests, reporting equipment problems and voter registration verification.

- The Early Voting Unit will use it to broadcast messages to all sites.
- If there is a ballot change, for example, you will be notified through eHelp.

3. Make sure the wall outlet or power strip is working properly.  
   ▶ **If there is still no power...**  
       → Set up and use the Alternate Ballot Box until the Scanner is fixed. |
| Not powering up | |
| **Ballot Issues** | |
| Blank Ballot Detected | A message that the ballot is blank will appear on the LCD.  
1. Explain to the voter that no votes were detected on the ballot.  
   → The review screen will say “Blank Ballot.”  
2. Ask the voter if they want to mark the ballot or override and leave the ballot blank.  
   ▶ **If the voter wants to leave the ballot blank:**  
      A. Explain that no votes will be counted.  
      B. Instruct them to press the “Cast” button on the Scanner.  
   ▶ **If the voter wants to mark a new ballot:**  
      A. Have them press the “Return” button and gently remove their own ballot.  
      B. Give the voter a chance to mark a new ballot.  
      → Follow instructions for “Voter wants to mark a new ballot” on page 188.  
      C. Spoil the blank ballot and put it in Spoiled Ballot Envelope 303. |
| Ballot is not initialed | A message that the Judge's initials are missing will appear on the LCD screen and the ballot will eject.  
1. Have the voter gently pull their ballot from the slot on the Scanner.  
2. Instruct the voter to cover their votes with the Voter Privacy Shield.  
3. Initial the ballot in the Judge's initials box.  
4. Have the voter re-insert the ballot into the Scanner. |
### Ballot Issues (continued)

#### Undervote Detected

A message that the ballot has undervotes will appear on the LCD.

1. Explain to the voter that the screen shows what race(s) that were undervoted.
2. Ask the voter if they want to mark a new ballot or override and leave the ballot as is.
   - **If the voter wants to leave the ballot as is.**
     - A. Explain that all contests marked correctly will be counted, but the undervoted contests will not.
     - B. Instruct them to press the “Cast” button on the Scanner.
   - **If the voter wants to mark a new ballot:**
     - A. Have them press the “Return” button and gently remove their own ballot.
     - B. Give the voter a chance to mark a new ballot.
       → Follow instructions for “Voter wants to mark a new ballot” on page 189.

Jam in the Exit Slot
Ballot WAS cast (part 2 - if part 1 did not work)

- If the steps are still not successful, you will continue to see “Paper Jam” on the screen after you try to start the Voting Session.

There is a jam inside the Scanner and you will need a new Scanner.
1. Press the “Shut down” button.
2. Break the seals on the Alternate Ballot box and unlock it.
3. Lift the cover and slide the slot open.
4. Close and lock the cover, with the slot open.
5. Re-seal the Alternate Ballot Box.
   → Record the seal numbers on the Scanner Audit Log.
6. Use the Alternate Ballot Box until a Rover comes with the new Scanner.
   → If the tech determines that the Scanner is not usable, they will power it down and remove the Memory Cards.
   → They will insert the Memory Cards into the new Scanner.
7. Set up the new Scanner following the Scanner setup procedures, starting on page 43.
8. Begin using the new Scanner.
   → The Ballot Counter will resume where it left off on the old Scanner.
     » The new Scanner will have the same count as the old Scanner.

- After the polls are closed for the day...

A. Remove the ballots from the Alternate Ballot Box.
B. Scan them into the new Scanner before completing the Statement of Ballots.

Jam in the Scanner
Ballot WAS NOT cast (part 1)

The Scanner will give a message saying “Assistance Required”.
1. Press the Security Key to the Security Key receptacle.
   → The screen will say “Paper Jam” “RESULTS HAVE NOT BEEN SAVED” “Try to manually remove the ballot from the device.”
2. Explain that the ballot has not been counted and is jammed in the Scanner.
   → If the ballot is straight...
   A. Press the “OK’ button.
      » The ballot will be returned.
   B. Scan it again.
      » Only if there is no visible damage to the ballot.

Clearing Jammed Ballots (continued)

If the ballot does not return, you will see “Residual Paper Jam! Please try to clear paper jam manually before entering the menu”:
1. Break the seals on the Transmission cover and the cover on the latch that locks the Scanner in place.
   → Place the broken seals in Used Seals Plastic Bag 605.
2. Open the Transmission door by lifting it to the right.
3. Unlock and Lift the latch cover and unlatch the Scanner.
4. Slide the Scanner forward and remove the ballot.
5. Spoil the ballot and issue the voter a new Voter Card.
6. Follow steps 7-13 on page 191.

If the ballot cannot be removed from the Scanner in step 4 above,
1. Spoil the ballot and issue the voter a new Voter Card.
2. Call the Early Voting call Center.
   → A Rover will be sent out with a new Scanner.
3. Use the Alternate Ballot Box until a Rover arrives with the new Scanner.
   → If the Rover determines that the Scanner is not usable, they will power it down and remove the memory cards and replace it.
   → They will insert the Memory cards into the new Scanner.
4. Set up the new Scanner following the Scanner setup procedures, starting on page 43.
5. Begin using the new Scanner.
   → The Ballot Counter will resume where it left off on the old Scanner.
   » The new Scanner will have the same count as the old Scanner.
### Printer Issues

| Paper Jam | 1. Break the seal on the Printer cover.  
|           | → Place it in Used Seals Plastic Bag 605.  
|           | 2. Lift the Printer door.  
|           | 3. Make sure the paper is feeding through evenly.  
|           | 4. Reinstall the pressure roller over the paper tape.  
|           | 5. Thread the tape through the slot on the door.  
|           | 6. Close the Printer cover.  

**The Pressure Roller is loose**

The pressure roller is loose or incorrectly installed, the message “Make sure paper is loaded and everything is OK” will appear.

1. Break the seal on the Printer cover.  
   → Place it in Used Seals Plastic Bag 605.  
2. Open the Printer door.  
3. Remove, then Reinstall the pressure roller over the paper tape.  
4. Close the Printer cover.

**No paper loaded**

When the Printer runs out of paper, the message “Make sure paper is loaded and everything is OK” will appear.

1. Follow the instructions in Changing Scanner Printer Tape, page 173, to correctly install or re-install the Printer paper.  
   → If you see a pink stripe on the tape, the tape is nearing the end.  
2. Press “OK.”  
   → The message “Printer is recovering! Please Wait” will appear.  
3. Wait for the Printer to recover and press “OK.”  
   → If it stops while printing, press “Resume” to continue printing the report.  

**Report is not printing**

1. Make sure that there is paper loaded into the thermal Printer.  
2. Make sure that the paper was not installed backward.  
   » If so, remove the paper roll.  
3. In either case above, follow the instructions in Changing Scanner Printer Tape, page 173, to correctly install or re-install the Printer paper.  

**Thermal Printer Error**

This message comes up whenever there is an error printing.

→ Could also be Jam or loose roller scenarios.  
→ Follow the instructions in Changing Scanner Printer Tape, page 173.
**Memory Card Issues**

At the beginning of the day, if you see the message “Verification Failed. Audit log file verification failed”, followed by “Startup Error”, call the Early Voting Call Center or send an eHelp message.

- The Memory Cards have been corrupted and your Scanner is no longer usable.
- Use the Alternate Ballot Box until a Rover can resolve the issue.

1. Break the seals on the Alternate Ballot Box and unlock it.
2. Open the slot.
3. Lock and re-seal the Alternate Ballot Box.
   → Record the seal numbers on the Scanner Audit Log.
4. Instruct voters to use the Alternate Ballot Box until a Rover comes with the new Ballot Box and Scanner.
   → If the Rover determines that the Scanner is not usable, they will power it down.
5. Set up the new Scanner following the Scanner setup procedures, starting on page 43.

- **At the end of the day...**
  A. Remove the ballots from the Alternate Ballot Box.
  B. Scan them into the new Scanner before completing the Statement of Ballots.
Scanner Replacement

Scanner is no longer accepting ballots or is damaging every ballot. If the Scanner is damaging every ballot or is no longer accepting ballots, call the Early Voting Call Center or send a eHelp message. You may need a new Scanner.

Follow the steps on this checklist when replacing a Scanner.

*Only after a Rover has looked at the Scanner and said that it must be replaced.*

Check the box next to the item as it is completed.

Activation Issues (continued)

Reactivating a Voter Card

The Voter Card will need to be reactivated for any of the following reasons:

▶ **Voter Card timed out**
  → Voter Cards time out an hour after activation.

▶ **Voter says they have the wrong ballot or selected the wrong party.**
  → This must happen before the ballot is cast.

▶ **Voter wants a new ballot.**
  → The voter says they have the wrong ballot, overvotes, undervotes, defective ballots, etc.

1. Bring up the voter’s record on the ePollbook.
2. Tap the gear icon to the left of the voter’s name.
3. Tap the “Reactivate Voter Card” button.
   → A “Creating Card message will appear.

4. Tap the “OK” button when the “Success” window pops up.

Voter fled

If a Voter Card is removed while voting, prior to casting the ballot, the Touchscreen will beep for 30 seconds and the following message will display on the screen:

“Vote Card removed. BALLOT WAS NOT PRINTED. Please re-insert Vote Card or call for immediate help”.

▶ **If the voter HAS NOT left the Early Voting site.**
  → Tell the voter to re-insert their card in the Touchscreen, chip facing down.
    » They can resume voting.

▶ **If the voter HAS left the Early Voting site,**
  1. Insert the Poll Worker card, chip facing down.
  2. Enter the 8-digit PIN.
  3. Press “Login”.
     → The ballot will be automatically cancelled in the Touchscreen.
  4. Remove the Poll Worker card.
     → The Touchscreen is ready for the next voter.
